

Brussels Reuse. Transform. Regenerate.

Seminar week
Winter semester 2026/27

UNIVERSITÄT
LIECHTENSTEIN

LSA

Liechtenstein School of Architecture
Urban Design and Spatial Development Unit

Brussels has become one of Europe's most inspiring laboratories for adaptive reuse. Through visits to outstanding contemporary projects, the seminar explores how existing buildings and structures can be transformed into new forms of housing, work, culture and public life. Particular attention will be given to strategies of reuse, structural integration and circular design.

The seminar week also includes an excursion to Charleroi, where the development of a new university campus serves as a catalyst for urban regeneration. Students will investigate how educational infrastructure can reshape a medium-sized city by creating new centralities, strengthening public life and supporting long-term territorial transformation.

Tutors: Oscar Buson, Anke Blumenstein. The seminar week is an integral part of the Advanced Studio «Living Campus: Designing Tomorrow Together». It takes place from Monday, 28 September to Friday, 2 October 2026. Costs for visits, accommodation and travel are approximately CHF 500 per person. Travel and accommodation are the responsibility of the students. Contact: oscar.buson@uni.li, anke.blumenstein@uni.li
